

basic

The broad spectrum of products in this series celebrates drinking pleasure – with an appropriate glass for every occasion. Composition and quality adhere to the requirements of the catering and hotel industries, wine merchants and the retail and wholesale trade, but also consider the needs of private customers. Classic, proven and valued design, combined with especial durability are the characteristic qualities of this machine-made glass-series. Lead-free composition qualifies the glasses for daily use and makes them dishwasher-proof. Special hardening processes prevent glass corrosion. The stem and base of these glasses are formed in one process, as if shaped by hand, which assures elegance and stability.

b 01 Bordeaux
